

COMPLETE INTERCONNECT & EMI FILTERING SOLUTIONS

Filtered, unfiltered, flex and custom packaged solutions for aerospace, defense and mission-critical systems.

RCV INTERCONNECT

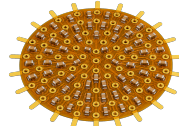

ONE OF THE SHORTEST LEAD TIMES IN THE INDUSTRY

FILTERED CONNECTORS

Integrated EMI/RFI filtering at the system interface.

- MIL circular platforms
- D-Sub and Micro-D platforms
- Custom capacitance
- Pin, socket, solder & PC tail

PRESS-IN FILTERS

Flexible PCB filtering designed to fit inside the connector.

- Chip capacitor networks
- Gold-plated contacts & shell tabs
- Custom electrical configurations

FLEX INTERCONNECTS

Lightweight routing for tight, complex assemblies.

- Custom flex geometry
- Connector-to-flex assemblies
- Filtered flex options

STANDARD CONNECTORS

Non-filtered MIL circular and PC-tail solutions.

- D38999 & MIL-C-26482
- Pins, sockets & custom PC tails
- Backshells & related hardware

FILTER MODULES

Packaged EMI filtering for subsystem integration.

- Multi-circuit assemblies
- Custom housings & interfaces
- Connector, lead or PC-tail

WHY ENGINEERS CHOOSE RCV

- Direct access to engineering
- Custom electrical & mechanical design
- Fast, responsive program support
- Filtered and non-filtered solutions

LET'S DISCUSS YOUR DESIGN

MADE IN THE USA
